

"A solution for all your consumable needs"

Our team at Consumable Solutions recognises the challenges that our customers face in managing the procurement of consumables. In some cases this can involve hundreds or thousands of line items or one off speciality products.

We also understand that there is not one solution that fits all customers. That is why we have developed a range of solutions for our customers and will even offer a bespoke service where required.

Our approach is to understand your needs and then use our experience, passion and technology to make the procurement process more efficient, transparent and cost effective.

With access to over 36,000 line items and state of the art technology our team is confident that they can provide on-time delivery, reduced transactional costs, reduced stockholdings and lower on-going costs through real-time usage reporting.

Our mission is to provide our customers with solutions. No matter the sector, the product category or application we will source, manage and deliver a Consumable solution.

Whatever your business – we have a solution for you.

Brian Harpur, Managing Director

mobile stock solutions

Mobile stores onsite, delivering conveniently and consistently

Fully equipped vehicles bringing your consumable requirements to your door. Using the latest barcode scanning technology, which combines efficient supply with same day paperless digital invoicing, emailed to your preferred address, or simply paid by cash or card. Special items can be ordered at this point and delivered, or express couriered within a few days.

personal stock solutions

Your own stock consignment, managed by our team

The benefits of a stock management system, managed by us, enabling seamless onsite supply. Customer owned stock, with Free of Charge storage units and the latest technology to monitor and control stock levels, throughout a fixed price term. Regular data updates via an App will be available to manage consumption and usage.

consignment stock solutions

Traditional consignment supplied and managed by our team

Removes the commitment to large stock holdings, as you pay only for goods used through Consumable Solutions owned stock. Free of Charge shelving units, restocking and hands on management enables close monitoring using the latest technologies. This approach allows for the provision of separate cost centres within the business and customer access to high quality data to allow for in-depth analysis of the company's consumable spend.
