

PRESS RELEASE

15 October 2019

GRP Solutions Showcasing Extensive Adhesives Expertise at Advanced Engineering

Director of Bonding Solutions at GRP Solutions, Ian Lancey, is pleased to be joined at this year's Advanced Engineering exhibition by our principle suppliers and leading adhesives professionals including Paul Nelson, expert in Bondloc's structural and engineering adhesives for multiple industry applications, Marc van Goethem, specialist in the Sabatack® range of flexible MS Polymer adhesives for Transportation applications, and Darren Hill, spray adhesives expert from Quin Global (TensorGrip) for your RTM/Infusion and composite applications.

The Advanced Engineering Show is the UK's largest annual advanced manufacturing trade show that provides the opportunity to meet and network with OEMs and supply chain partners.

Ian Lancey comments, "We're offering something very special to benefit end users this year on Stand 050. As well as some great interactive videos and innovative products on display, dedicated experts will be on hand to solve your bonding questions and issues. It's fantastic to be backing up my own in-house adhesives knowledge with such impressive technical know-how from the Quin Global, SABA and Bondloc dedicated UK managers. Come along and put us to the test."

If you can't make the show simply email any enquiry to sales@grp-solutions.com.

About Bondloc:

Bondloc UK Ltd is a British manufacturer of adhesives and sealants based in Bewdley, Worcestershire. The company was formed 25 years ago and supply a wide range of adhesive chemistries into all areas of industry including engineering, automotive, transportation, marine, heavy plant and agriculture. Innovation and service are the key drivers within the business, providing a global customer base with a product range second to none.

Further information can be found at: www.bondloc.com

About SABA:

With an extensive team of R&D specialists and more than 86 years' experience, we are the number one partner for vehicle manufacturers in the transportation industry. The emphasis here lies on MS Polymer technology, with Sabatack® being the main product line. Sabatack® contains no solvents or isocyanates and is consequently both user- and environment-friendly.
