GRP Solutions Expands its UK and Ireland Adhesives Presence into the Marine Industry with SABA

Furthering its relationship with SABA, GRP Solutions is delighted to announce its expansion into the UK and Ireland of SABA's premium range of adhesives and sealants for the marine industry, complementing its existing transportation presence. A strong bond has been forged between the two companies since GRP Solutions' appointment as a SABA distributor in April 2019. The Sabatack® range is also in line with GRP Solutions Sustainability goals containing no solvents or isocyanates and is consequently both user- and environment-friendly.

adhesives & sealants

Marc van Goethem, Export Manager of SABA, states, "SABA is committed to providing innovative adhesives and sealants for the marine industry. We work together with an extensive network of sales offices and carefully selected distributors and agents all over the world. We are happy to strengthen our presence in the UK and Ireland with our partner GRP Solutions who knows the marine market extensively and speaks the language of our customers."

Ian Lancey, GRP Solutions Business Director – Bonding Solutions, explains, “With the addition of SABA’s specialist adhesives and sealants to our marine portfolio, GRP Solutions offers a wide range of professional, high-quality adhesives and bonding solutions to complement its current product offerings. Now our customers across both the marine and transport industries will benefit from improvements in quality, productivity and GRP Solutions high standard of service.”

Please contact our internal sales team sales@grp-solutions.com or your local Business Manager for further information or a demo.

About SABA:

With an extensive team of R&D specialists and more than 85 years’ experience, we are the number one partner for multiple industries including Marine, Truck, Bus and Rail. The emphasis here lies on MS Polymer technology, with Sabatack® being the main product line. Sabatack® contains no solvents or isocyanates and is consequently both user- and environment-friendly.
