

PRESS RELEASE

15 September 2022

GRP Solutions appointed Airtech Distributor

GRP Solutions is proud to announce its appointment by Airtech Advanced Materials Group as a distributor for UK and Ireland of their vacuum bagging and composite tooling materials. The range provides for resin infusion, pre-preg and hand laminating processing of all commonly used resin systems such as polyester, vinyl ester and epoxy.

Kerry Lee, VP General Manager, comments, "As a global supplier to the composite industry, Airtech has a well-established network of locations providing outstanding local service with global support. Working with GRP Solutions at our Tygavac, UK facility establishes a new relationship that will further enhance our product distribution in the UK, particularly in the South of England, where GRP Solutions is based, bringing increased support and benefits to our customers."

Lee Williamson, Sales Director of GRP Solutions adds, "We are delighted and excited to add the world class range of Airtech products to our portfolio, expanding reach and assisting to service the UK composite market. Helping our customers to explore and develop processes such as vacuum infusion is just one of the many offerings from the GRP Solutions technical team. We already stock a wide range of Airtech products so please feel free to contact your local Business Manager for more information or to arrange a consultation."
